

30 TO 40 PSI ADJUSTABLE PRESSURE REGULATOR

Designed in Utah, the Hydro-Rain HRS 200 adjustable pressure regulating series spray heads deliver consistent performance, season after season, in commercial and residential applications.

Installed around the world in commercial, municipal, and residential applications, the HRS 200 Series leads the way in innovation.

The patented adjustable pressure regulator feature allow you to select 30 or 40 psi pressure regulation. Perfect for job sites with both Spray and Rotator Nozzles.

HRS 200 series heads are compatible female threaded nozzles. And available with purple caps for non-potable water.

HRS 200 Series

- HRS-200-SA-PR Adjustable Pressure Regulated Shrub Head
- HRS-200-02-PR 2-inch Adjustable Pressure Regulated Spray Head with Hydro-Seal Check Valve
- HRS-200-03-PR 3-inch Adjustable Pressure Regulated Spray Head with Hydro-Seal Check Valve
- HRS-200-04-PR 4-inch Adjustable Pressure Regulated Spray Head with Hydro-Seal Check Valve
- HRS-200-06-PR 6-inch Adjustable Pressure Regulated Spray Head with Hydro-Seal Check Valve
- HRS-200-12-PR 12-inch Adjustable Pressure Regulated Spray Head with Hydro-Seal Check Valve

HRS 200 Series for Non-Potable water

- HRS-200-02-NP-PR 2-inch Non-potable Adjustable Pressure Regulated Spray Head with Hydro-Seal
- HRS-200-03-NP-PR 3-inch Non-potable Adjustable Pressure Regulated Spray Head with Hydro-Seal
- HRS-200-04-NP-PR 4-inch Non-potable Adjustable Pressure Regulated Spray Head with Hydro-Seal
- HRS-200-06-NP-PR 6-inch Non-potable Adjustable Pressure Regulated Spray Head with Hydro-Seal
- HRS-200-12-NP-PR 12-inch Non-potable Adjustable Pressure Regulated Spray Head with Hydro-Seal

For optimal performance use with Hydro-Rain HRN series nozzles. The HRN nozzles deliver true matched precipitation rate so you can cover the entire project. Plus, all HRN nozzles are conveniently color coded to indicate their particular spray radius.
