HEAVY-DUTY SNOW SHOVELS

18" Hybrid

The 18" Hybrid works as both a pusher and scoop shovel. Angled ribbing and metal wear strip adds additional strength.

Part Number 80032D-Orange
Part Number 80034D-Blue

20" Hybrid

The 20" Hybrid cuts a wide path and works as both a pusher and scoop shovel. Angled ribbing adds additional strength. Available with or without metal wear strip.

Part Number 80061D-Blue
Part Number 80062D-Blue (with metal strip)

Professional Pusher

Designed for quick and easy snow removal. The high capacity blade moves heavy snow loads in minimal time.

High impact polypropylene blend designed and tested to withstand damage during heavy use and in extreme temperatures.

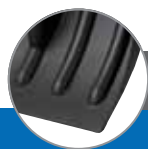

Part Number 80058-Orange

24" Pusher/Scoop Hybrid

Designed for pushing snow, the high capacity blade moves medium to heavy snow loads in less time. Partial sides corral snow for less side spill while still allowing for use as a plow.

Part Number 80052D-Orange
Part Number 80053D-Blue

STRONG

DURABLE

Pound for pound the best snow shovel choice.
